

## **Supplementary Sports Premium Information**

Prior to the PE & Sports Premium funding Priory already had in place its' own PE department. The funding has allowed us to further invest our PE and School Sport provision and further upskill staff in their knowledge and development in teaching school sport allowing us to create a more positive experience for our learners.

Staff have attended Create Development Real PE, Real Gym & Real Coaching CPD through our affiliation with the Slough School Sport Network. The Created Development approach puts the child first and focuses on developing the learning skills throughout the whole curriculum.

To help us embed this training we have also received school-based support to develop our teaching and learning habits for maximum impact and sustainability.

To build on this culture and approach we will continue to invest in quality CPD that will support teachers to inspire generations to come and to create a positive relationship with physical activity for life.

Strategies that have been implemented to create active children for life

- The Daily Mile
- Change4life
- Family Engagement clubs
- Competitions & fixtures (engaging as many different children to experience school sport competition)
- Celebration assemblies (encompasses success of competitions, Students leadership responsibilities)
- Real Leaders (student leadership programme)
- Sports Council
- Extra swimming
- A wide range of extra-curricular clubs (before, during & after school) that extends from the curriculum, engaging students to live an active lifestyle, & engaging in at least 30 minutes of physical activity a day.
- Wider CPD for SEN PE
- A broader range of experiences in lessons, professional coaches from Airborne Gymnastics delivering a more focused approach to gymnastics through innovative approach
- Strategies that engage the least active with a specific focus on girls' participation.
- Family home challenges that allow children to experience a positive experience with their families.

This creates sustained philosophy that "active, healthy children achieve more".
