Y4 French (Bonne Année – Happy New Year!)

Activity 1

Last term we learned about our family.

Go to BBC Bitesize KS2 French <https://www.bbc.co.uk/bitesize/subjects/z39d7ty>

Scroll down towards the bottom of the webpage where it says 'Topics' and click on '**Talking about your family**'.

Click on the sound files to remind yourself of the vocabulary and the sentences we learned. Listen and repeat and do this more than once to try and remember the sentences.

- Find out how to say 'I have a big brother' or 'I have a big sister.'
- Find the sentences under the heading '**Describing your family**' and work out what you would say for your family. Try and learn it, ready to say in class!
- After the section on key sounds there is a section called '**Talking about your family : quiz**' Do the quiz – how did you do?

There is another Activity on the next slide.

Activity 2

This term we are learning how to say our birthday in French. By the end of the topic you will need to know the months of the year and the numbers up to 31 in French. These activities are to practise numbers up to twenty only.

Go to <https://www.french-games.net/frenchtopics> and choose 'Numbers'.

- First choose the section **Numbers 1 to 10**. As this is revision you could choose to click on '**No tutorial thanks GO TO THE GAMES**' and see how you do.
- After some practice click on **Section 4 Tests** at the top of the web page. There are two types of tests – a multiple choice test and a writing test. Once you have done the multiple choice test try and do the writing test!
- When you are happy that you know numbers 1 to 10 well, go back to the topic 'Numbers' and this time, when you have clicked on it, choose 'Numbers 11 to 20'. This time choose '**Full Tutorial All activities**' and there are four activities to work through to introduce you to the numbers 11 to 20 in French. Do these, repeating listening to the numbers as many times as you need to, before playing the games and then doing the section on tests for numbers 11 to 20!
