The moon

# The moon

Why do you think we are learning about the moon?

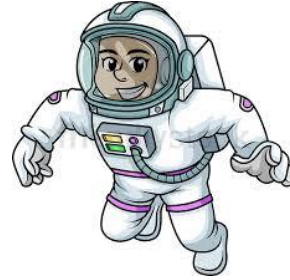

I think we are learning about the moon because...

# The Moon

We are learning about the moon because...

- The moon is in Space  
It takes 4 days travelling by rocket to get there.

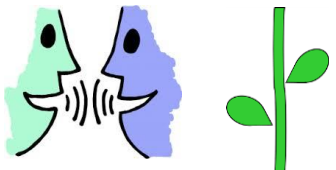

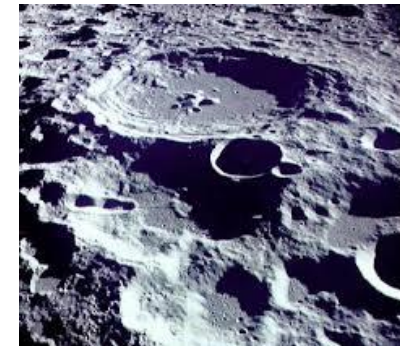

- Astronauts use rockets to travel to the moon.

- The moon orbits the Earth

- The moon is very dusty, mountainous and full of craters.

I think we are learning about the moon because ...

You can't survive on the moon without a space suit. If you lived there, you'd have to wear it all day.

It is very cold on the moon. You have to wear gloves, a helmet and a suit all the time.

There are no trees, plants or animals on the moon.

There is no oxygen to breathe. Astronauts use oxygen tanks in their space suits.

Talking point:

# The moon is a good place to live.

I agree that the moon is a good place to live because...

I would like to build on ... by adding...

I disagree that the moon is the best place to live because...  
I would like to challenge you by saying....
